To the IQC Framework Committee Members:

I look forward to the public meetings on Oct. 8 and 9 and will give each of the committee members a copy of my book and the film that follows my mother's story, MY MOTHER'S VOICE. My hope is that you will read the book and watch the 25 minute documentary which has been endorsed by the National Council of Social Studies (NCSS). Please feel free to give both the book and film to the Chair of the History department at your school or your school's librarian.

In addition I would like to present two papers from Ambassador Morgenthau's State Department reports now located in the manuscript division at the Library of Congress. One I have already sent digitally, but if you were unable to open the attachment of THE HISTORY OF THE ARMENIAN QUESTION, I have printed the four page report for your convenience.

As I went through more of my research papers I came upon another report I would like the committee to acknowledge...the writer was a U S business man, Walter M. Geddes, stating his observations of the Armenian deportations as he traveled through Turkey and Syria. The nine pages given to Ambassador Morgenthau are wrenching. One sentence is especially significant to history, and I highlighted the sentence which is located on page 5:

"Several Turks whom I interviewed, told me that the motive of this exile was to exterminate the race, and in no instance did I see any Moslem giving alms to Armenians, it being considered a criminal offense for anyone to aid them."...Walter M. Geddes

Thank you again for your time and energy.

Sincerely,

Kay Mouradian EdD
